

**“It’s about  
entrepreneurship.  
It’s about  
thinking long term  
and not just  
about yourself.”**

**Dr Maja Baumann**

Member of the Board of Directors as a  
representative of the fourth generation  
of the Vontobel family

Vontobel uses only recycled paper for printing. It takes about 1.5 times less energy and 2.5 times less water to produce recycled paper than it does to produce paper from fresh fiber. Recycled paper also cuts greenhouse gas emissions by more than 20 percent. We offset the remaining emissions with various CO<sub>2</sub> projects around the world

Vontobel

# Corporate Responsibility— at a Glance

# Corporate Responsibility— at a Glance
