

Investment Banking

Graduate Trainee Program Corporate Finance

Dreaming of a career in Investment Banking?

In Investment Banking, we offer private clients, companies and institutional investors a range of global solutions from a single source.

What does our Corporate Finance at Vontobel offer?

The Corporate Finance Team offers the complete range of services comprising equity capital markets (IPOs, secondary offerings, block trades, public tender offers, share buy-backs, etc.), debt capital markets (equity-linked and straight bonds, hybrid instruments, capital structure advisory, restructurings, bond repurchases, etc.) and merger & acquisitions (acquisitions, divestiture, mergers, MBOs, succession planning, valuations, etc.). We cover the whole value-chain of a corporate finance transaction from the generation of ideas for our client to the structuring of the best solution and the subsequent execution and implementation. In our main business areas we hold leading positions in the Swiss Mid&Small Cap market. While the capital market business is primarily focused on Switzerland, we are regularly involved in cross-border M&A transactions. We work closely together with Equity Brokerage and our Fixed Income Desk, as well as with the respective Research Departments.

The GTP "Corporate Finance" is primarily focused on Equity Capital Markets, Debt Capital Markets and Mergers & Acquisitions/Advisory. The close collaboration with Brokerage gives the possibility to get insights into their business as well.

The overall program stretches over a total period of 24 months.
