

Account Management – Contacts

Your relationship specialists—we ensure that our clients can refocus on what they do best

In fulfilling our service commitment, we deliver bespoke solutions throughout the value chain, thus adding sustainable value for you as a client while ensuring compliance with regulatory requirements. From multi asset electronic trading solutions (equities, bonds, structured products, FX, ETD) to global custody: execution and security services are at the core of what we offer. Technical challenges with trading architectures, smart order routing and higher STP rates, TCA and Big Data have become essential topics for our successful business model.

Our area of expertise: More than 125 financial institutions rely daily on the highly tailored solutions we provide. The account management team supports you with the following activities:

- Identify the best solution for you
- Negotiation of contracts (incl. pricing)
- Support throughout the onboarding process
- First point of contact for non-trading related inquiries
- Optimization of services through relationship reviews
