

Vontobel Trading Venues

This list should be read in conjunction with the Best Execution and Order Handling Policy of Bank Vontobel AG.

The enclosed list shows the most important trading venues that are taken into consideration in order to achieve the best possible execution for the client. The list is not complete. The “Bank” can use other, not listed, trading venues in those instances where either an advantage for the “Client” is clearly indicated, or no disadvantage is perceived. The “Bank” can also delete a trading venue from the list at any time. Where an advantage for the “Client” can be expected, or no disadvantage is anticipated, the “Bank” can act as principal in a transaction. In order to achieve the best possible execution, where an internal transaction takes place, all available on-, and off-exchange quotes are consolidated.

On those trading venues where the “Bank” is a member, orders are usually executed by the “Bank”, acting as agent. Depending on the prevailing market situation and/or the “Client’s” instructions, orders can be placed through the broker network. In non-member markets, the “Bank” does not have the possibility to transact orders itself and in those instances the broker network will always be used.
